

## School Sports Premium

### Primary Schools Sport Funding

Since 2013, the government has provided more money to improve provision of physical education (PE) and sport in primary schools. This funding – provided jointly by the Departments for Education, Health and Culture, Media and Sport – is allocated to primary schools.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools. Schools must spend the additional funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this. At Khalsa Primary we are committed to ensuring our children understand the importance of being active, having a healthy lifestyle and enjoy sports and games activities. Below is an overview of how we have decided to use this funding in 2022-23.

**The school's allocation for this year is £19,310.**

#### Overall aims:

- Increased participation in PE and sport so that all pupils develop healthy lifestyles with the opportunity to experience and learn new skills.
- The impact that PE has on physical well-being and fitness, self-esteem, confidence and the numbers of pupils involved in sporting activities in and out of school.
- Provide professional development opportunities to improve teaching and learning in PE. Improve the quality and breadth of PE and sporting provision.

#### Sports Funding Report 2022 - 23

Our overall aim is to focus sports funding to be able to provide opportunities that inspire pupils and broaden their horizon in sports activities which at the very least help to maintain healthy lifestyles, but more importantly taking sports to a higher level of participation and achievement for our pupils.

**So far the school is yet to receive any of the allocated money although last academic year the first proportion of funds was received in December.**
